

Teach for Belgium

Teach for Belgium's vision is that one day all pupils will have the same chances of success, regardless of their socio-economic origin. The non-profit organization wants to eliminate social inequality in education through the recruitment, selection, training and supervision of motivated candidates who are deployed as inspiring teachers in the schools with the greatest needs. For this we work together with various players in the education field. In the long term, Teach for Belgium wants to develop an association of alumni who have the required experience and competencies to continue their commitment to these themes in their professional path.
