

## **Flanders Make vzw**

Research Centre for the Manufacturing Industry. Innovation happens when machines, robots or vehicles are getting more intelligent, more autonomous, more energy efficient and interconnected. Flanders Make executes industry driven research in Leuven, Kortrijk and Lommel (Belgium) in the technological domains of:

- Mechatronics
- Product development methods
- Advanced manufacturing technologies

Collaborative robots can work safely alongside humans in the assembly line. Design and assembly processes are highly automated.

Locations: Belgium

Number of vacant positions: 20

Opportunities available abroad: Yes
